To the Lake Resor To-night -- A Road to the Sugar Factory.

SATURDAY there being a cheap excursion to that beautiful salt water Resort at Garfield Beach, many took the advantage to visit the capital city and take in this invigorating bathing resort before returning. It was a very pleadition for bathing and swimming and a goodly number went in. We are astonished when such a number was gathered from the settlements between here and Salt Lake that such a privilege is so seldom our lot. We think it would pay the railroad companys to have them frequently during the summer. We heard that there were a few of the excursionists on the D. & R. G. The people of American Fork are determined on the right of way to the Sugar Factory. At a special session of the City Council on Saturday evening-present-Mayor Cunningham, Jaz. Chipman, M. Greenwood, Mr. A. Green, and two other councilmen, the matter of opening up Harrington street to the Sugar Factory was discussed and the order given to have this matter settled and the road opened as soon as possible. A scheme was put forward for the better division of the water. That as things existed at present a great quantity of the water was lost, that the gates at the mouth of the Canyon were in bad condition and that a communication between the three settlements drawing their water from that sourse be made with the view of having all three tak: their part in trying to come to a mutual understanding and having new gates put in. Several other matters were brought up, but were of little interest, most being passed to next general meeting. It was stated that Plea-Fork in trying to better save the waste

The band paraded the streets on Monday night and gave some lively music by the way of awakening the people here that a glorious days outing was again to be had at this celebrated health resort where combined with bathing, tishing and enhaling pure mountain air there was to be displayed a rare amount of musical talent in the contest that is to take place there for a first prize of \$100 and a second of \$50. The Fork band accompanied the excursionists from here and discoursed some merry music on the way to the station. We believe they do not intend to take part

THERE is to be a grand excursion to the Lake Resort this evening from Bingham of the Oddfellows of that place Mr. Lee, the N. G. of the lodge was in the Fork on Tuesday, making the final arrangements with the management. Mr. Ambrose & Adams, and as the Provo steamer and other inducements will be given to intending visitors who intend to be present, a good time is guaranteed. Everybody is invited to be present and especially all who fraternate with this brotherhood, which is worldwide known as a friendly and benefit society. Remember it happens this evening, at the Lake Report and all are cordially invited and we would say do not miss it

WE are sorry to state that Mr. Thadies Beley, whom we stated in our last issue lost tour of his children, by diphtheria has binuself been faid up with the same ductise. He is recovering, but another of his children, we hear is now down with measule. We are sure he has our sympathy in his late sad bereavemen and present affiction.

There will be universal sorrow this morning when it is known that Mrs. Frank W. Jennings, a well-known and popular young lady of this city has pas ed away, the sad event happening at \$180 a.m. She had been ill about form weeks, though not seriously until within about seven days ago. The funeral will be held to-morrow at 2 p.m. from the residence first door east of the Eagle gate.-Herall.

Robbery at The liotel.

The Lehi Hotel was entered by burclars last night, and two gold watches we pairs of shoes, two pocket knives, and one coat, were taken. As soon as the theft was discovered a search was instituted for the culprits, but up to the ame of going to press they had not been gang of them in town yesterday, for two robberies are reported and there may still be some lesser thefts that we have not heard of yet. Such a thing has not nappened before for some time, as Lehi has been comparatively free from such characters.

This is the story: A doctor called the other day upon an up-town family, where he feels pretty well acquainted, to attend the child of the bonne in some triffing illness. After disgnosing the case and giving some di-rections for the care of the child, ha said as lie was going away: "Oh do you want my to give him any medi-vine?" "Not if he doesn't need it, if comme," said the child's mother. Well. but you have the critical methods for the load in the world. All he wants is care and to avoid taking cold.
